What are the most useful ideas, tips, or techniques you will take from today’s workshop?

- Colleges must gain great relationships with companies to gain knowledge in the field so when the student enters the field they will know what to do.
- How to prepare to write a report for a grant.
- How to apply for grants.
- How in-depth and difficult it is to get a grant.
- How partnerships in allied health science helps programs in our college.
- Where grant money goes.
- Plan ahead of time to win the grant.
- If there is a lack of money in a certain program, speak out about it otherwise the school won’t know and money won’t be there.
- Following the protocol/timeline in order to create a viable grant on time.
How will you use what you’ve learned in today’s workshop?

- Find out more about grants and spend time looking at various foundations that give out money.
- Continue to be a good student so that the college will continue to receive grants.
- Look into being a grant writer - a consultant.
- When I become a teacher, I will utilize the Grants Office to apply for a grant.
- If/when a grant becomes available to create an outreach program to promote reading, I’ll work on applying for that type of grant.

What topics would you recommend for future workshops?

- How to become a grant writer.
- Where to find information on grants.
- How students can apply for grants.
- Websites with information on applying for grants.
- How to access websites which regularly sponsor grants.
- More about the STEM program and why more people must invest in science.
- Program of special interest.
