

TWO-TERM ENROLLMENT FAQ's

1. When will the schedule be available for both winter and spring terms?

Answer: Schedule of classes for both terms will be available on the MVC website on November 3. Please visit our website at www.mvc.edu and refer to the Catalog/Class Schedule link.

2. When will I receive my registration date to register for both terms?

Answer: Registration dates will go out Saturday, November 3 for both winter and spring terms. Please check your WebAdvisor, "Check My Registration Dates/Holds" to verify your assigned registration date.

3. When will fees be due, will I need to pay for both terms within a certain deadline? Will I be dropped from my classes for non-payment?

Answer: Drops for non-payment have been cancelled; however, fees are due as soon as possible upon registration. If fees are not paid in a timely manner, a hold will be placed on the student's record which will prevent the student from registering for a future term, viewing grades and getting transcripts, enrollment verifications and diplomas/certificates until fees are paid in full.

4. How many units can I register for, for both terms?

Answer: You may register for up to 9 units for the winter term and up to 18 units for the spring term.

5. What if I don't want to attend the winter term and instead only want to attend the spring term?

Answer: You can register for either term. You are NOT required to register for both terms.

6. Can I wait to register for spring if I'm not sure about my schedule and/or Student ED Plan yet?

Answer: Yes, you can register on or after your assigned registration date. However, please try to register as soon as possible as classes tend to fill up fairly quickly.

7. What if I change my mind about certain classes I registered for already? Will I receive a refund for the class?

Answer: You can add and drop classes on WebAdvisor as usual. It is imperative that you drop unwanted classes by the refund deadline. Please check for the refund deadline drop date pertaining to the class on your class schedule through WebAdvisor. If you do not drop within the refund deadline, you will be liable for any fees applicable to the class and may ultimately receive a failing grade for the class.

8. Can I register for a prerequisite in the winter and register for the next level class for the spring term?

Answer: Yes, you will need to register for the prerequisite in the winter first and register for the higher-level course for the spring term. Please make sure to register for your winter courses first and then register for your spring courses after, in order to have the prerequisite courses in place. If you DO NOT pass your prerequisite course or drop from the course in the winter, you will be automatically DROPPED from the higher-level course in the spring term.

9. When will we be able to purchase parking permits for either term?

Answer: Parking permits will NOT be required for the winter term. Spring term parking permits will be available for purchase via WebAdvisor once registration begins.
